All weeks build upon each other, and the course is required in totality.

Synchronicity provides roadmap for understanding how the universe works around us; students learn to navigate life with ease, health, and success.

“Being spiritual is more than merely believing in some deity in the abstract. It entails the discovery of another, entirely different dimension of life, one that operates solely in a spiritual manner.

The universe is filled with fortuitous encounters, intuitions, mysterious coincidences, all pointing to a higher purpose behind our lives, behind all of human history.” -James Redfield, the Celestine Vision

Week 1: *Insight: A Critical Mass*

Treating Coincidences like Synchronicity: A close look at coincidences and their spiritual meaning- something is operating underneath everything we do, what is it? How to turn interactions into slow, purposeful and deliberate communications.

Integration: Sustaining Synchronicity

What is the Synchronistic Flow? Learn to elevate your experiences and transcend the ordinary.

When the mysterious coincidences come more freely, we learn that we are guided and protected.

Week 2: *Insight: The Longer Now*

A historical perspective of how the power of Church influence and class definitions has affected our spirituality and path to enlightenment.

Integration: Conscious Conversation

Being truthful against all energies to maintain the flow. Treating every interruption as a potential Synchronistic event. Spreading the spiritual experience and contagious personal reality.

Week 3: *Insight: A Matter of Energy*

Lessons in viewing the pure, malleable energy all around us, as well as the tools of intention and expectation, heightening our sensitivities to beauty. Emphasis on eating cleanly to receive the highest potency and put your own energy into action.

Integration: Moving into Alignment

Understanding the Natural Laws of Truth, Connection, Karma, and Service to help move into Synchronicity and manifest our dreams. Lessons in alignment for protection from random accidents and attacks and listening to our hunches and premonitions.

Week 4: *Insight: The Struggle for Power*

Lessons on Energy and how it flows to one another, how we control it, and how conflict affects it. Exposing what stealing energy means, vs. connecting with the higher source.

Integration: Recognizing Ideology

Staying in balance and self-confidence against those who receive power by dominating. Lessons in Maintaining the Laws of Truth and Karma, be it religious or political.

Week 5: *Insight: The Message of the Mystics*

Tapping into the source and letting go of control. Filling up with source energy without manipulating for energy.

Integration: The God Connection

The Breakthrough: concentrating on and expecting a sense of Protection through Surrender. Lessons on seeing God in everything and staying connected to be aware of our premonitions.

Week 6: *Insight: Clearing the Past*

Discovering the mission: What is the reason we chose our family and our path? What are "Control Dramas?"

Integration: The Great Commissioning

A deep look at each religion, politics, and polarity. "The Rise to Sacred Influence:" full Divine Connection, elevating consciousness, and forming a Template of Agreement.

Week 7: *Insight: Engaging the Flow*

Advanced practices and systems for building, maintaining, and sharing energy. Handling fears and exploring the reasons for true "clean living."

Integration: The Art of Tuning In

Seeing how Synchronicity really works, observing it more closely, and practicing the intuitive urges that come naturally.

Week 8: *Insight: The Interpersonal Ethic*

Sending energy to others to receive and give truths. A look at personal addictions, love, and struggles for energy: male-female energy, parent-child energy, group energy.

Integration: The Oneness Intention

From tuning into oneself, to tuning in to those around you. Learning to uplift others in conversation through intention to connecting with their higher self. Learning the One Principle.

Week 9: *Insight: The Emerging Culture*

Mayan and other evolved cultures: the evolution of intuitive and telepathic beings. Lessons in meditation, intuitions, vigilance for Synchronicity, and intense introspection.

Integration: Opening to Perception

Seeing the world's beauty and light. Working more with groups and using Positive Contagions of Consciousness. A lesson in "Agape" Reality and an introduction to The Afterlife.
